

# VT ROUTE 2A/US ROUTE 2 INTERSECTION RECONSTRUCTION TAFT CORNERS

*Client:*

Public Works Director  
Town of Williston  
7900 Williston Road  
Williston, VT 05495  
(802) 878-1239

This project began with a scoping study of the intersection which included an extensive public input process. A signalized intersection with pedestrian islands was the Town's preferred alternative for this intersection. L&D carried the project through the VTrans conceptual, preliminary, final and contract design phases. We were also involved with several aspects of the bidding and construction phases of the project.
